Every monster can learn to reset

HALLOWEEN EDITION

How to use this kit

1

Print & cut

Letter paper. Laminate the cards if you can.

2

Set the scene

Posters on the wall, cards in a cauldron (a bowl works).

3

Practice when calm

October is loud and sugary: rehearse the breaths on quiet days.

4

In the storm: point, don't lecture

"I see you." Point to the calm board. The child picks. You breathe too.

5

After trick-or-treat

Sign the certificate. Celebrate the reset, not the quiet.

I breathe, move or squeeze.

5

I come back when I'm ready.

My Feelings Potion

Is your potion cool and calm, or boiling over? Point to it.

I need a grown-up now

4

Breathe like a ghost

Slow... floaty... quiet.

Move like a skeleton

Shake it out, bone by bone.

Even monsters have big feelings

And that's okay.

Ask a friendly witch for help

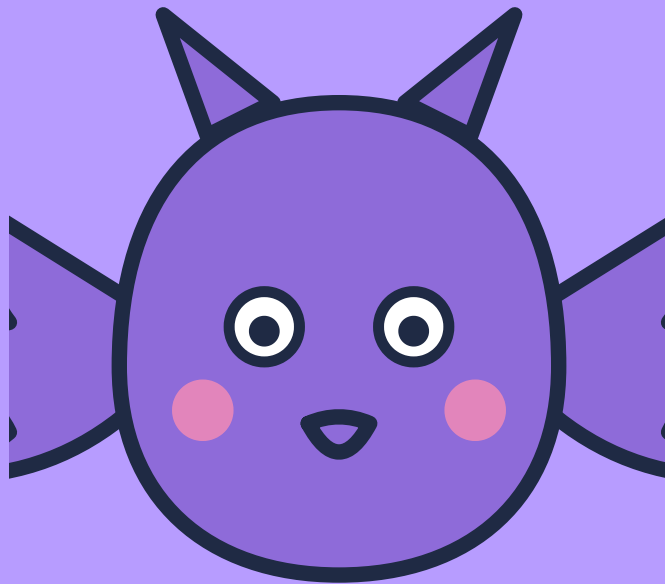

You don't have to fix it alone.

Name your monster

Angry? Scared? Sad? Say it out loud.

Boo! Then breathe

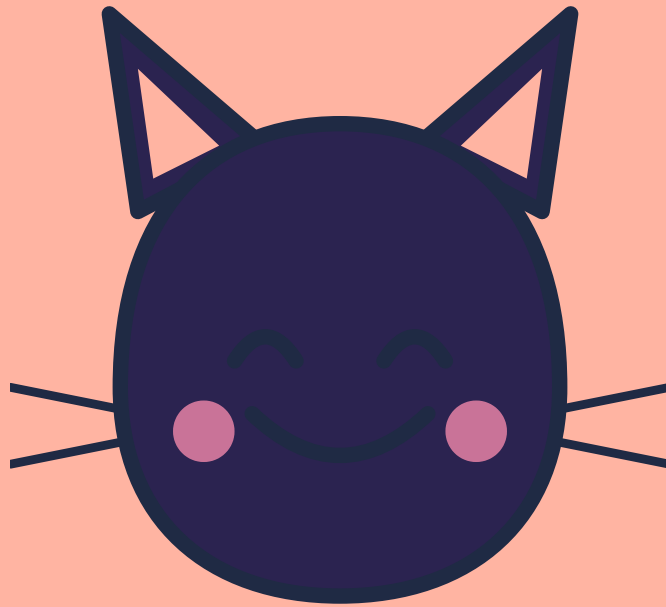

Big feeling... big breath.

**Every pumpkin glows
differently**

You are just right.

You tamed it!

You noticed, named it, chose a tool and came back.
